Recto verso

19 December – 2 February

Abstract painting has not said its last word. All the more so because colour plays a major role in it. But how can the field of harmonies always be broadened without falling into decorative play? This is the challenge proposed by the gallery, which brings together nine visual artists, including Christian Bonnefoi and Marc Renard.

MM Gallery, 68 Place du Jeu de Balle, 1000 Brussels. Thursday to Sunday, 11 a.m. to 5:30 p.m. Site: mmgallery.be.
